

St. Rita Summer Study Program

The St. Rita Summer Study Program is for rising 5th – 8th grade students who want to continue practicing and learning skills in Mathematics/Problem Solving, Grammar/Reading, and Study Skills. The program is designed to provide a preview of material students will see the following year opposed to a review of what they have learned already. The reasoning is that if students have a prior knowledge of materials they will be more successful (in other words, seeing something the second or third time helps with success).
